Holidays have arrived!!

Recess in the Industry

Holidays are here, and we from Meshdecor want to wish you a Merry Christmas and very happy New Year! Health and happiness are all we usually wish to everyone around us, but also we want to wish to your company an amazing year of good business, great deals and a huge growth.

In Brazil, where we produce the eco-mesh, Christmas is on Summer time! It is a different holiday than in North America. A Christmas without snow, sledges or reindeers, but with a lot of fun, beach time, Christmas trees, and of course, Santa goes there as well. A little hot weather for his clothes ☺ but he doesn't care about.

Actually what matters is that everyone is happy, celebrating their own faith.

But the eco-mesh's Industry goes into a recess. A break for its employees to celebrate with their families. So the Industry will be out from:

December 18th, 2015 to January 11th, 2016.

It means that all of our customers who want to receive an order during coming January have to order now, until Friday, Dec 11th, 2015!

Don't miss the chance to decorate your bouquets and vases for Valentine's Day! Now is the time!
